

Concrete Hopper

Concrete Hopper - This particular attachment is a self-dumping hopper that automatically activates to unload as soon as bumper release contacts the side of a dumpster. After dumping is completed, the hopper returns to a locked and upright position. This particular piece of machinery is likewise offered along with a cable which allows operation from the seat of the lift truck so as to have the alternative of manually unloading the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
