

Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in use in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of lift trucks, with components covering more than 120,000 specialized items for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a customary feature on every forklift.

Clark has a unrelenting goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing market position.

Clark has selected the structure of "Lean Production" at all of its assembly plants for the reason that this method is extremely economical and permits minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for production facility management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to perfect the efficiency and brilliance of their products while minimizing expenses. The new value engineering agenda combines progressive product growth and provides superior consumer support and service within the industry.
