

Cascade Clamps

Cascade Clamps - Cascade Manufacturing Company was established in Portland, Oregon in the year 1943. They started out as a small machine shop at first hiring 4 people. Sales for their first year of operation amounted to about sixty thousand dollars. The first recorded sales revenues involved the assembly and machining of stainless-steel pipe fittings, valves and various components. During 5 years of operation, the company had expanded to forty staff and their annual sales volume had risen to \$330,000. Nowadays, Cascade is among the leading worldwide makers within the material handling business.

Design and manufacturing of the company's very first hydraulic cylinder allowed this new company to aggressively pursue better business possibilities. All through the final 60 years, the industry of material handling has grown into a very advanced area with Cascade proudly playing a part in its development. Cascade currently continues to develop as the premier supplier of lift truck accessories and numerous associated products. The company feels confident in their skill so as to continue to lead the way in the business by understanding client's requirements in the future and remaining competitive in the international market.

In the 1950's, Cascade began designing, fabricating and selling hydraulic accessories. Construction was completed in 1956 on a brand new facility in order to accommodate all the office and plant operations in Portland, Oregon at the company's current center of operations. After 15 years of business, total workers reached a hundred and eighty employees and sales had reached almost 2.3 million dollars.

1959 in Springfield, Ohio a second production facility was built. The year 1960 marked Cascade's preliminary transfer into the global world of the material handling industry as the business established interest in the Netherlands, England, and Australia.

The business altered its name to Cascade Corporation in 1964. In the year 1965, Cascade went public with a preliminary offering of two hundred thousand shares of common stock. The company has expanded its production plants within the U.S. with locations in Warner Robins, Georgia, Portland, Oregon and Springfield, Ohio. Cascade products are made worldwide because of a lot of subsidiary operations. In the year 1944, a brand new plant was accomplished in Almere, the Netherlands which is Cascade's European control center. This plant is built to be the ultimate customer support centre.

Cascade further expanded their product base in 1996 and 1997 after acquiring 5 companies, which included the Kenhar Corporation, the worldwide best in blades.
