

Meritor Parts

Meritor Parts - The Meritor Business is a premier global dealer founded upon 100 years of custom of quality and service. Meritor concentrates on integrated systems together with several modules and parts to the original machine makers and aftermarket equipment within the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and feels that this energy contributes to their competitive advantage in the global operations. The business values all of their customers and would like to guarantee their success while anticipating their diverse needs. Meritor begins with a philosophy which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over 11,200 individuals, Meritor promotes collaboration and innovation among a team of experienced professionals.

Meritor strongly believes in only hiring future focused workers. These top-caliber people can rapidly adapt to changing environments and freely demonstrate the level of commitment and performance necessary so as to get results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their employees various chances for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, braking and suspension systems used for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their international engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group which is committed to ensuring optimum development at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 countries.

The supplier development network is particularly located so as to support new business growth. Regional teams are supported by global quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business methods and apply lean techniques.
